

Product Details

Industrial Sewing Threads

Meta Aramide 20/3

Article Description

Spun meta-aramide sewing thread offers permanent heat and flame protection up to 380°C at an excellent value.

Special Properties

-  Meta-aramide sewing threads do not melt, they offer very good chemical and biological resistance and they are inherently flame retardant, self-extinguishing.
-  Long shaple fiber
-  Avaliable in some colours.
